Objective: Work within the healthcare field utilizing my clinical nursing experience and skills to benefit an organization by providing excellent patient care, peer mentorship and education while contributing to clinical procedures, guidelines and leadership. Looking to work in a department that encourages and fosters team collaboration as well as promotes and values those able to work in an autonomous fashion to complete department objectives. Seeking opportunities in care accountability reviewing medical records and creating clinical documentation to ensure clinical competencies and compliance.

Professional Experience:

8 years

[REDACTED] Tempe, AZ 2014 – Present

- As a case manager, I am responsible for the patient’s intake assessment and developing a long-term care plan. I maintain patients records and their medical progress. Furthermore, the case manager is responsible for communicating with the physician in coordination of care. Patient visits include wound care, administering medication and educating patients and family members.

Education:

Scottsdale Community College 20 [REDACTED]

- Associate of Applied Science (Nursing)

Pima Medical Institute 20 [REDACTED]

- Phlebotomy Certificate Program

Licensures and Certifications:

Arizona State Board of Nursing License
CPR/Basic Life Support for Health Care Providers
Phlebotomy Technician Certificate

Professional Organizations:

American Nurses Association
Arizona Nurses Association
Wound Care Education Institute

Activities:

- Community: Church organizations to include youth and community service programs.
